About Me

Design professional with **5+ years experience.** My goal is to work as a **passionate designer** who has genuine concerns for catering to end user satisfaction, client contentment and also concern for noble causes.

The backgrounds of Architecture & Product Design have been beneficial for me to form a **holistic approach towards Design,** which ultimately percolates into UI / UX Design.

As a value addition - I successfully completed the rigorous **Full Stack Designer** training, in order to integrate creativity (UI & UX) with technicality (Front End Development) and also underwent an online course in Strategic Design from **Rhode Island School of Design, U.S.A.**
